

A Little Bit of Everything, Picked Up At Home and Over the Sunshine State

Businessmen who have been looking
for new investments are a few more.

A reported mining record from
Albuquerque.

State road crews continue work
on many new highways.

Concerning the man-caused auto
accident at Hillsboro.

A deep cut will be cut in the
ditch near Glorieta, N.M.

Railroad officials announced closure
of the Colorado River bridge.

Boats are arriving daily at the
dock at the hotel in Las Vegas.

Reservations of all rights in the
state of New Mexico have been
nearly filled.

The Palace, Royal, Market has
the season's peak of canned goods
for sale.

Show on the Florida and Texas
Hornbeam Model-Petty pictures on
Monday.

Well, the state didn't buy the
water bonds. Now the question is,
What will?

Carland Light and Power Com-
pany installs 60,000 watts and more
power of light.

Silver City community house is
formally opened with a large and
enthusiastic attendance.

Western Ice and Bottling works
of Alamogordo are to build an ad-
dition to cost \$100,000.

Farmers of Pecos valley have de-
monstrated practicability and feasi-
bility of raising cotton.

David Klem, head of the Klem
shoe, visited this city Tuesday
on a tour of inspection.

Cotton crops of New Mexico, Col-
orado and Arizona are to be fin-
anced by Los Angeles banks.

Election returns will be announced
from the stage of the Columbian
theater next Tuesday night.

Legislative General House was in
Columbus early in the week in con-
nection with some matters.

East Grimes drivers are going
to plant hundreds of acres to their
famous cantaloupe next year.

Sweet Potato Industry in Bosque
County becomes one of the largest
money producers of the season.

Spokane, this Saturday and Sun-
day at the Orpheum theater interpreted
by Theta Dancers. Big spectacle
two days.

Venison steaks, venison goat and
goat are good. A number of Columbus
butchers are studying up these
recipes.

Carl & Elmer, real estate,
renovated their office building at the
corner this week at the new price
\$100 per year.

There is a large variety of trees now
the Rio Grande is the best place where you can buy trees
that grow.

Buchanan and Walker have forty
acres for the most part on the
ditch and 250 for advertising
before Christmas.

Judge Ross, District Attorney
of San Juan County, Geronimo, Roswell
and Durango, were in the
territory Tuesday.

An area of about 20,000 acres in
northern India is to be devoted to
the cultivation of some 40 varieties
of flowering plants.

For the past two days the Cooper
Mills, a town above the mountains, is
a stop on the Roswell route. It is
a genuine affair.

Now in the photograph accessory
line is a size of this steel with 25
prints mounted on edge to serve as
reproducing masters.

Take your last look at the photos
of the candidates. They go into
town next week and won't be seen
for two years hence.

Protestant C. H. McAdoo's had a
surprise attack of pneumonia occurring
early in the week. He expects a
stay of about three weeks.

The first day of the heating sea-
son resulted in an exhibition of 8
truck loads in front of Frank Stahl's
store in Deming.

Yesterday night the wind of the
winter rains fell, and Sunday morn-
ing there was a snowdrift with a tem-
perature of 38 degrees.

Prohibition officers have visited
this city several times this week,
probably looking for election bibles—
whatever kind that is.

A Swiss inventor's dry battery for
portable electric lamps consists of 3
separate elements, any one of them
can be replaced when needed.

The smallest hot water bag just
holds half an ounce of water and
can be placed on either side of the
teeth and the sufferer's cheek.

An electric hot and lamp have
been combined in an invention in
such a manner that both can be
operated from a single socket.

Of British invention is electrical
apparatus which shines in the pilot
house of a steamship the angle of
the vessel's cables at all times.

Shows are current that a large
Domingo wholesale house is making
arrangements to open a warehouse
in Columbus to expedite their ship-
ments.

Food Products Company has se-
lected a site at Alamogordo for a
canning factory and construction
work will be started in the near
future.

To enable persons to examine the
inner surfaces of their own teeth
a dental mirror that can be
attached to a binocular has been invented.

Leather doses, which can be folded
or the compact storage when not in
use have been invented to include
many additional uses.

Of European invention is a motion
picture camera for amateurs that
uses glass plates instead of film and
also can be used to project pictures.

An Australian Antarctic expedi-
tion plans to establish a meteorolog-
ical station to give warnings to
ships of storms that sweep the
far southern seas.

Made effective by a pneumatic
piston when a pedal is pressed, a
trike has been invented to be
operated under an automobile wheel
to prevent skidding.

A London railroad station has
been equipped with passenger and
mail machines to sell tickets to per-
sons who wish to accompany their
friends to the trains.

India soon will have its first
important gold refinery producing
all of the finest coins which it
contains, mostly being sent to
Europe for refining.

TV viewer enhances his television
but never touches it. As an
electrical switch in the base is
pressed, turns up the track and
size to perfect its uses.

It takes a good deal of time
to make a good meal. A man who can live and
work is always known as a man
with white hair. This don't apply how-
ever where a cookhouse cannot be
eaten.

The rate of return credit in old
stocks.

Ventilators that can be attached
to the walls through which air is
circulated by the action of walls
have been patented in a few
years ago.

If nothing is a problem, John
Hollingshead, New Mexico is
a fine country. Hollingshead wants
to live in Haines with his Mexican
family in sight.

President & Williams made a wise
move when they chose the post
office location. Their time has in-
creased steadily, because they had
the office working.

Company L, 24th Infantry, held a
half-night at Monte Vista.
The winter session is on and the
soldiers took a lively turn.

Four insults took \$100 from a
woman, Ill., telephone girl's savings
and then made a quick get-
away. What unloving wretches.

From now on the different pas-
senger trains may be expected to
arrive at any old time that is fit
for winter and every other winter
is nothing to go by.

A boy from Bell is working
now much of his time for his
dad and has 300 rods of it back
about the same length prior to
village as at least of coal.

A new grip that fits over the
middle of a twisting hammer pro-
tects the user's hands against the
round bars and gives him an un-
obstructed view of his work.

Carry round to start harvesting
biggest maize and little corn crop
this country has ever raised. All
answers made big money as the
crop was big and prices of the
highest.

Clouds, one of the thriving cities
of New Mexico, is built by the ex-
cessive rains by hand labor problems
and a movement is on foot to de-
sign some way to make the land
less wet the light.

Assimilating an electric death instru-
ment is a device intended to test inci-
miting mixtures by immersing them
with water, the speed with which
the water separates itself being a
cunge of the oil's quality.

Automobile jockey drivers are re-
quested to see Clark Edwin Dean
at once and have the numbers of
their license scribbled on the
windshield of their machines.

The regular monthly meeting of
the Columbus Chamber of Commerce
will be held next Wednesday night.
According to the invita-
tions the members are to meet the
first Wednesday in each month.

Aborigines Building Association
has made arrangements to build and
open up the market at a reasonable
price a number of modern
and medium priced houses and
if they take well will proceed to
build additional ones.

Of European invention is a motion
picture camera for amateurs that
uses glass plates instead of film and
also can be used to project pictures.

An Australian Antarctic expedi-
tion plans to establish a meteorolog-
ical station to give warnings to
ships of storms that sweep the
far southern seas.

Made effective by a pneumatic
piston when a pedal is pressed, a
trike has been invented to be
operated under an automobile wheel
to prevent skidding.

A London railroad station has
been equipped with passenger and
mail machines to sell tickets to per-
sons who wish to accompany their
friends to the trains.

India soon will have its first
important gold refinery producing
all of the finest coins which it
contains, mostly being sent to
Europe for refining.

It takes a good deal of time
to make a good meal. A man who can live and
work is always known as a man
with white hair. This don't apply how-
ever where a cookhouse cannot be
eaten.

VOTE FOR CHAS. C. ROYALL

STATE SENATOR--13th District (Hidalgo, Luna, Grant, Sierra and Socorro Counties)

WHY?

BECAUSE

he has resided in New Mexico for fourteen years and
thoroughly understands the entire political conditions
and the need of a change.

BECAUSE

he will owe no obligations to anyone except the people
of the state and will have no strings tied to him, but
will be thoroughly independent and will carry out his
principles of equality and fairness to all alike and no
special privileges or concessions to anyone.

BECAUSE

he stands for true representative government, and will
work to restrict the state according to laws of
population, so that the majority of the people shall
rule and the government of the state be taken from
the hands of a few men and returned to the people.

BECAUSE

he believes the interests of the state and its people
are greatly paramount to the interests of any political
party, and will at all times fight bussiness in the state
and demand that public money be spent for the benefit
of the people as a whole.

BECAUSE

if the people desire or expect good government at this
time they must depend upon a democratic legislature.

BECAUSE

would you, as a stockholder in a corporation in which
your board of directors had mismanaged your affairs
until you were bankrupt, depend upon the old board
or put in a new board of directors, when a change was
necessary to make your business a success?

BECAUSE

don't you think a change is necessary?

Then Vote for Charles C. Royall, Democratic Candidate, Who Has Specifically Promised a Change

The fire of the bright lights of
Beverly takes hold of Major Tom
Lundquist about every two weeks.
He has enjoyed seats at the movies
for all winter. He played his
final engagement last Saturday ev-
ening.

"Jack" Stover, "Pal" Hunter and
"Bill" Berry are going fishing after
the election is over. They are going
over on the Rio Grande where only
the hitting of the fish and the shooting
of the birds may be the limit.

Mrs. Susan A. Moore will arrive
in Columbus in the near future.
Mrs. Moore has kept up her reputa-
tion as a tourist, having visited
nearly all of the principal points
of interest in Colorado and New
Mexico.

Parish of Columbus sports boys
bright for Silver City to see the
annual Speedwell bonfire in action
against Eddie Johnson. Local fans
turn out with all kinds of bets
placed on the advice of Mar-
shall Jackson.

In the backyard of Sergeant
Stokes home, opposite the J. L.
Walker residence, is a sunbank 11
feet high and 11 feet long.
The only attraction it has
received from the sergeant was a
wash and then never used.

Colonel doesn't need a repub-
lican sheriff to make it a citizen
of his. It is one now, ac-
cording to the general records of
Judge Gile. However, in al-
most two months, the colonel
has never been in the office of a
sheriff.

The Indians of Columbus made
a start on the new waterworks
system when they invested about
\$4000 in a certain lot of lead iron
water pipe. One end, however, was
so far off that the Indians
had to purchase and had been put
into the system right away.

Mrs. Eugene Austin of Deming is
one of the prominent democratic
workers which suffrage has helped
develop. She has been an earnest
and an indefatigable worker ever
since the primaries and her efforts
have been of great help in arousing
the patriotism of the ladies of
Deming and Luna county.

Rain or shine the Hotel Clark
Columbus—Deming stage, which
means a ride in a new Standard
Six, leaves every morning at 8:30
and returns from Deming between
8:30 and 9 o'clock. This 60-horsepower car makes the
trip in one hour flat and you think
you are riding on velvet.

The Ruidoso mine is the one in-
teresting spot now. Talk about the
mines coming out of the stack at
the Valley! "Old" Bill in the mud
days when you fondly fancied
your cowboy and horse-colored
certificates. Just for a coddle go up
on your roof and get a peak at the
Ruidoso mountains!

Mr. Roberts, right-hand man to
Frank Walker, returns to doing
his office work. He purchased a field-
trip to the present situation.

But Kerr appears to have a walk-
away for the state hall office.
Luna county doesn't feel that
it has a candidate worthy of a
state office. The Gomer will also
stand aside if the next election Mr.
Kerr's opponents will have nothing
on the ballot except like they have
had this election, so much so that
even the Republicans who have had
dealings with this office refuse to
vote for the present situation.

The most complete line of Hardware in the city.

HEADQUARTERS FOR GOODWICH AUTO CARBON TUBES

All sizes of Window Glass. A complete line of R. P. W. Goods.

A full line of Grocery and Hardware, Paints and Thinner.

In fact, you will find anything that is carried in a first-class Hardware Store.

J. L. WALKER

Hardware and Auto Accessories

The most complete line of Hardware in the city.
